Citrus Flow PLUS™

4% anticoagulant Sodium Citrate PLUS 30% antimicrobial Ethanol pre-filled syringe for catheter locking

Locking indwelling catheters with Citrus Flow PLUS™ offers all the advantages of Citrus Flow™ pre-filled syringes PLUS the added advantage of 30% Ethanol. A natural disinfectant with a broad range of antimicrobial activity:

- Prevents biofilm formation¹
- Reduces incidences of CRBSI’s (Catheter Related Blood Stream Infections)²,³
- Compatible with polyurethane and silicone catheters⁴
- Safer than high concentration Sodium Citrate⁵
- Safe, easy and inexpensive to use⁶,⁷
- Terminally sterilized product
- Sterile field compatible
- All natural, no artificial colours or preservatives

CitraFlow PLUS™
The natural way to lock and disinfect catheters
