

# CT SCAN MULTI-DOSING SETS & DI ACCESSORIES ● ● ● ●

## Transfer sets

Multi-dosing transfer sets with stopcocks or valves.

## Y and T connector sets

Multi-dosing Y and T connector sets.

## Qwik connex sets

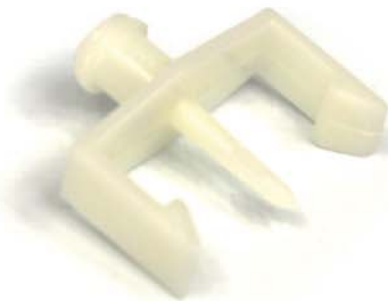

All in one multi-dosing sets with stopcocks or valves.

## Single use patient lines

## Accessories

MedXL is committed to offering clinicians quality products for multi-dosing applications.

Our dedication to continuous improvements in design and manufacturing ensures that our customers are using innovative, cost effective, safe and efficacious products.

Among some of the benefits that our customers have realized with MedXL products :

### **Maximize imaging efficiencies**

- Reduction of lost time due to less syringe/contrast line set-up changes.
- Change just once or twice a day versus between each patient.
- Syringes are easier and faster to fill.

### **Safe multiple use of power injector syringes**

- Third party validated check valves.

### **Maximize infection control**

- Fewer setups means a closed/complete system. That reduces the risk of line contamination.

### **Reduction of contrast media waste**

- Residual media in the fluid pathway is used more effectively.

# TRANSFER SETS AND DEVICES

# CATALOG | DESCRIPTION | LENGTH | QTY/CASE

STRAIGHT TRANSFER SETS

**3008**

Straight transfer set with vented spike, clamp and FLL

25 cm

100

**3021**

Straight transfer set with vented spike, swabbable injection site

52 cm

50

**3021-2**

Straight transfer set with mini vented spike + swabbable injection site

52 cm

50

STOPCOCK TRANSFER SETS

**3004**

3 way high flow stopcock with vented spike and clamp

76 cm

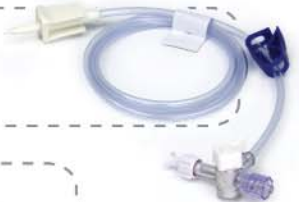

50

**3004-3**

3 way high flow stopcock with mini vented spike and clamp

76 cm

50

**3004-4**

3 way high flow stopcock with vented spike, clamp and pressure syringe adapter

90 cm

50

VALVE TRANSFER SETS

**3002**

Dual valve transfer set with vented spike and clamp

91 cm

50

**3003-1**

Dual valve transfer set with vented spike and clamp

115 cm

50

**3003-2**

Dual valve transfer set with vented spike, clamp and pressure syringe adapter

115 cm

50

**3003-3**

Dual valve transfer set with mini vented spike and clamp

115 cm

50

# CONNECTOR SETS ● ● ● ●

# CATALOG | DESCRIPTION | LENGTH | QTY/CASE

T CONNECTOR SETS

**2806**

T connector set with 2 female connectors, 1 male connector and 3 valves

20 cm

100

**2806-2**

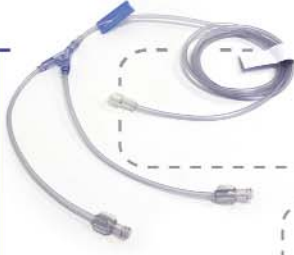

T connector set with 2 female connectors and 1 male connector

20 cm

100

Y CONNECTOR SETS

**2809**

Y connector set with 2 female connectors and 1 male connector

165 cm

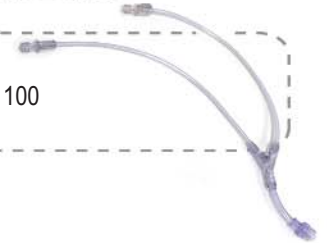

100

**2809-1**

Y connector set with 2 female connectors, 1 male connector and 1 valve

21 cm

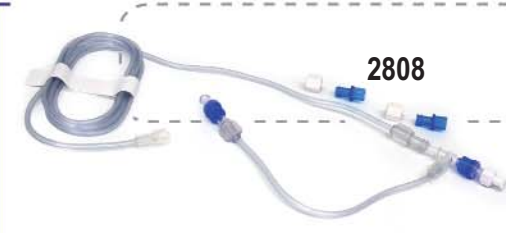

100

# QWIK CONNEX SETS ● ● ● ●

# CATALOG | DESCRIPTION | LENGTH | QTY/CASE

QWIK CONNECT SETS

**2808**

T connector set with integral patient line, 2 check valves, 1 syringe adapter and 4 extra caps.

152 cm

100

**2810**

Y connector set with stopcock transfer sets.

110 cm

100

**2811**

Y connector set with valve transfer sets.

110 cm

100

# SINGLE USE PATIENT LINES

# CATALOG | DESCRIPTION | LENGTH | QTY/CASE
